UNLEY GROVE POCKET PARK

Moonee Valley City Council is upgrading the Unley Grove Pocket Park and after an engaging community response, the following proposal has been designed. The key features of the park are:

- relocating the park bench
- raised, wicking bed planters for community use with additional seating - removable if needed.
- new garden beds that include a mix of native and exotic plants, with larger shurbs along the fence
- lawn area to remain but be reshaped

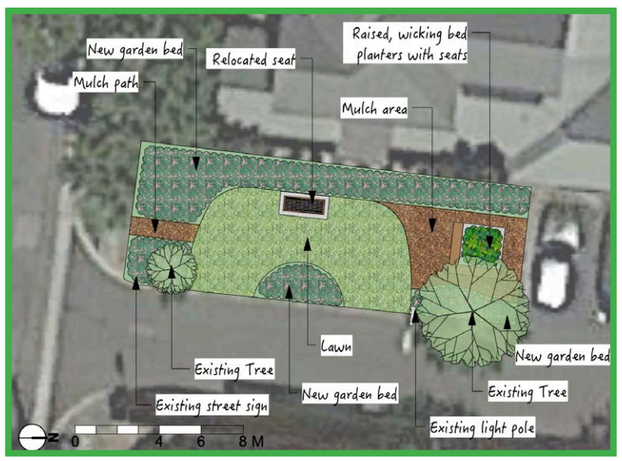

Mix of hearty native plants

Raised planters with seating
